OBJECTIVE

Software Engineer with experience in building scalable mobile and web applications using React Native and React.js. Skilled in delivering high-performance, user-centric solutions with a strong focus on clean architecture, performance optimization, and seamless user experience.

EDUCATION

Master of Computer Application, Maharaja Sriram Chandra Bhanjadeo University, Odisha 2021 - 2023

Relevant Coursework: Computer Science and Information Security

CGPA: 8.20

Bachelor of Science, Karanjia Autonomous College, Karanjia 2018 - 2021

Relevant Coursework: Physics

CGPA: 7.66

SKILLS

- **Frontend:** ReactJS, JavaScript (ES6+), HTML5, CSS3, TypeScript, Redux, Context API, React Query, Tailwind CSS, Material UI, Styled Components
- **Backend:** Node.js, Express.js, Core Java, Spring Boot, Hibernate, RESTful APIs
- **Database:** MySQL, SQLite
- **Programming Languages:** JavaScript, Java, Python, SQL
- **Developer Tools:** Git, GitHub, Postman, VS Code, Android Studio, Xcode
- **APIs and Integrations:** REST APIs, Google Maps SDK, Firebase Cloud Messaging (FCM), Remote Config
- **AI Tools & Technologies:** OpenAI GPT-4 API, Deepgram (Speech Recognition), Twilio (Voice), LangChain, Google Cloud Vision AI
- **Deployment:** App Store Connect, Google Play Console
- **Languages:** English, Hindi, Odia

EXPERIENCE AND LIVE PROJECTS

Software Engineer Oct 2023 – Present

Maventech Labs Pvt Ltd, Bengaluru, INDIA

- Built and optimized cross-platform mobile applications using React Native for iOS and Android, ensuring seamless performance and consistent UI.
- Revamped the company's **CRM App**, boosting performance from 93% to 99% in Crashlytics and integrating POS systems (Pinelabs, Msipwe, PhonePe, etc.).
- Engineered and launched 150+ microapps from a unified codebase on the **Google Play Store**, improving scalability and deployment efficiency.

- Leveraged Redux for centralized state management, Firebase Cloud Messaging for real-time notifications, and React Navigation for smooth routing.
- Managed deployments on App Store Connect and Google Play Console, including OTA updates and release cycles.
- Collaborated with UX/UI teams to craft responsive and accessible user interfaces.
- Strengthened problem-solving skills through continuous practice of data structures and algorithms in Java.
- **Key Web Projects (React.js):**
 1. **KSRTC** – Built an online booking and payment platform for Karnataka State Road Transport Corporation.
 2. **KSRTC Swift** – Delivered real-time seat availability with a modern booking experience.
 3. **Shrinath Travel Agency, Gajraj Bus, Mahendra Bus** – Built and maintained scalable booking and trip management platforms.

UNIVERSITY PROJECTS

Development of an Android App for a Tourist Navigation System

Jan 2023 - Mar 2023

- Built a multilingual Android application for tourist navigation with real-time location tracking using Google Maps API.
- Implemented QR code scanning to provide instant access to location-specific information and services.
- Enabled personalized itinerary planning and integrated social sharing features.
- Enhanced user engagement by integrating multimedia (audio) guides.
- Designed an intuitive UI/UX to ensure accessibility across diverse user groups.

ACHIEVEMENTS / CERTIFICATIONS

- Earned **Full Stack Java Certification** from JSpiders, Marathahalli.
- Achieved certification in **Responsive Web Design** on freeCodeCamp.
- Gained certification in **JavaScript Algorithms and Data Structures** on freeCodeCamp.
- Successfully participated in the **One Week National-Level Workshop on Python Programming**, organized by MSCB University.
- Completed the **Certificate Course in C Programming**, offered by Maharaja Sriram Chandra Bhanja Deo University.

SUMMARY

Results-driven Software Engineer with 2.6 years of experience building scalable mobile and web applications using React Native and React.js. Skilled in performance optimization, API integration, and delivering high-impact user-centric solutions.
