OBJECTIVE

Versatile Software Developer with 1 year of experience in crafting high-quality, scalable mobile applications for Android and iOS, as well as responsive web solutions using React.js. Skilled in designing, developing, testing, and deploying robust applications across platforms including Google Play, Apple App Store, and POS environments. Known for delivering seamless user experiences, clean architecture, and maintainable code. Recently explored AI tools including GPT-4 and Deepgram to build innovative voice and language applications. Passionate about building impactful digital products that solve real-world problems. Currently seeking a full-time opportunity to contribute technical expertise, creativity, and a growth-driven mindset to an innovative development team.

EDUCATION

B.tech(E.C.E)- Veer Bahadur Singh Purvanchal University, Jaunpur

2018 - 2022

Relevant Coursework: Computer Science and Electronics

Mark In Percentage : 81.24

Intermediate - St. Patrick Sr. Sec. School Jaunpur, U.P

Relevant Coursework: Physics, Chemistry, Maths

SKILLS

- **Programming Languages:** HTML5, CSS3, JavaScript (ES6+), SQL, MySQL
- **Frameworks:** ReactJS, React Native, Android SDK, Node.js, Redux, React Navigation
- **Developer Tools:** Git/GitHub, Postman, Android Studio, Xcode, Visual Studio Code
- **APIs and Integrations:** RESTful APIs, Google Maps APIs, Firebase Cloud Messaging (FCM), Remote Config
- **AI Tools Technologies:** OpenAI GPT-4 (API), Deepgram (Speech Recognition), Twilio (Voice), LangChain, ChatGPT, Google Cloud Vision AI
- **Deployment:** App Store Connect, Google Play Console
- **Languages:** English, Hindi

EXPERIENCE AND LIVE PROJECCTS

Software Engineer

Maventech Labs Pvt Ltd

Oct 2023 - Present

Bengaluru, INDIA

- Create a mobile app for iOS and Android using React Native.
- Completely renovated the company's [CRM app](#), improving performance from 93% to 99% on Crashlytics.
- Implemented dynamic routing and navigation, enabling seamless user experiences across the app.
- Integrated various APIs for real-time data fetching and state management using Redux.
- Managed push notifications using Firebase Cloud Messaging (FCM) and integrated custom alert systems.
- Collaborated with UX/UI designers to create user-centric designs and enhance the visual appeal of the application.
- Integrated MySQL with Node.js backend to handle real-time data operations for applications.
- Optimized database indexing and query performance to enhance application speed and scalability.
- Ensured data security and integrity through proper database structuring and access control mechanisms.

- [KSRTC](#): Developed a user-friendly web application for Karnataka State Road Transport Corporation (KSRTC) to facilitate online bus ticket booking, schedules, and payment integration.
- [Online KSRTC Swift](#): Built a modern web platform for swift and efficient ticket reservations with real-time seat availability and enhanced user experience.
- [Safar Express Travel](#): Designed and maintained the website for seamless customer interaction, enabling bus ticket bookings, trip management, and inquiry handling.
- [Gajraj Bus Service](#): Developed a robust online system to handle reservations, view schedules, and provide service information for travelers.
- [Mahendra Bus](#): Created an intuitive platform for bus bookings and service management, ensuring a smooth user experience for customers.
- Participated in code reviews and maintained high code quality standards.
- Deployed the app on Google Play Console for Android.
- Integrated various POS and printing devices in the CRM app, e.g., Pinelabs, Msipwe, PhonePe, Pinetree, Omnificent, Comstore (Africa).
- Deployed the iOS app on App Store Connect.
- Maintenance of Android and iOS apps.
- Added 150+ microapps on [Google Playstore](#) from a single code base for various bus operators.
- Integrated the Google Maps SDK in multiple apps, following multiple design patterns such as MVVM, MVP, etc. [Google Playstore](#) from a single code-base for various bus operators.
- Created and deployed multiple government apps from scratch- [KSRTC AWATAR](#), [Ente KSRTC](#) and [PUNBUS - Punjab Roadways](#).
- Created and deployed several [React Native iOS apps](#),
- Worked on various bus and cargo apps, e.g., [Iam GDS](#),

ACHIEVEMENTS / CERTIFICATIONS

- Completed **Full Stack Developer Course** at Apna College.
