

LOKESH DAS

Address : Bangalore, Karnataka, 560037

✉ itslokeshdas@gmail.com | [in](#) Lokesh Das | [6362807094](#) | [Github](#)

OBJECTIVE

Seeking a full-time software development role where I can apply my expertise in mobile and web technologies to create impactful, user-centric digital solutions. Eager to join a forward-thinking team that values innovation, collaboration, and continuous learning.

EDUCATION

Master of Computer Application, Maharaja Sriram Chandra Bhanjdeo University, Odisha 2021 - 2023

Relevant Coursework: Computer Science and Information Security.

Mark In CGPA : 8.20

Bachelor of Science Karanjia Autonomous College, Karanjia 2018 - 2021

Relevant Coursework: Physics

Mark In CGPA : 7.66

SKILLS

- **Frontend:** ReactJS, JavaScript (ES6+), HTML5, CSS3, TypeScript (basic), Redux, Context API, React Query, Tailwind CSS, Material UI, Styled Components
- **Backend:** Node.js, Express.js, Core Java, Spring Boot (basic), Hibernate (basic), RESTful APIs
- **Database:** MySQL, SQLite
- **Programming Languages:** JavaScript, Java, Python, SQL
- **Developer Tools:** Git, GitHub, Postman, VS Code, Android Studio, Xcode
- **APIs and Integrations:** REST APIs, Google Maps SDK, Firebase Cloud Messaging (FCM), Remote Config
- **AI Tools & Technologies:** OpenAI GPT-4 API, Deepgram (Speech Recognition), Twilio (Voice), LangChain, Google Cloud Vision AI
- **Deployment:** App Store Connect, Google Play Console
- **Languages:** English, Hindi, Odia

EXPERIENCE AND LIVE PROJECTS

Software Engineer

Oct 2023 – Present

Maventech Labs Pvt Ltd, Bengaluru, INDIA

- Developed and maintained cross-platform mobile apps using React Native for iOS and Android, ensuring consistent performance and UI across devices.
- Renovated the company's **CRM App**, improving performance from 93% to 99% in Crashlytics and integrating POS devices (Pinelabs, Msipwe, PhonePe, etc.).
- Created and deployed over 150 microapps from a single codebase to the **Google Play Store** for various bus operators.
- Used Redux for global state management, Firebase Cloud Messaging for push notifications, and React Navigation for screen routing and navigation.
- Deployed apps to App Store Connect and Google Play Console; managed OTA updates and version releases.
- Collaborated with UX/UI teams to deliver responsive and accessible design implementations.

- Practiced data structures and algorithms regularly in Java to improve coding efficiency and problem-solving skills in real-world scenarios.
- **Key Web Projects (React.js):**
 1. **KSRTC** – Developed the online booking and payment platform for Karnataka State Road Transport Corporation.
 2. **KSRTC Swift** – Real-time seat availability and modern booking UI for swift ticketing.
 3. **Shrinath Travel Agency, Gajraj Bus, Mahendra Bus** – Designed and maintained full-stack platforms for bookings and trip management.
- **Government App Deployments:**
 1. **KSRTC AWATAR** – Karnataka’s official government transport app.
 2. **Ente KSRTC** – Kerala RTC online reservation platform.
 3. **PUNBUS – Punjab Roadways** – Real-time intercity bus management.
- **Other Notable Apps:**
 1. **Iam GDS** – A logistics and cargo management mobile platform.
 2. **Multiple iOS React Native Apps** – Developed and deployed apps for internal and public use.

UNIVERSITY PROJECTS

Development of an Android App for a Tourist Navigation System

Jan 2023 - Mar 2023

- Developed a multilingual Android app to guide tourists with real-time navigation and nearby attractions using Google Maps API.
- Implemented QR code scanning at destinations to provide instant access to detailed information and Play Store links.
- Enabled users to create personalized itineraries and share experiences via integrated social media features.
- Added multimedia guides (audio) to improve learning and user engagement.
- Designed a user-friendly UI/UX to enhance accessibility for all user demographics.

ACHIEVEMENTS / CERTIFICATIONS

- Completed **Full Stack Java Course** at JSpiders, Marathahalli Branch.
- Completed **Responsive Web Design** on freeCodeCamp.
- Completed **JavaScript Algorithms and Data Structures** on freeCodeCamp.
- Successfully completed the **One Week National Level Workshop on Python Programming** organized by MSCB University, Baripada
- Successfully completed the **Certificate Course in C Programming** offered by Maharaja Sriram Chandra Bhanja Deo University (MSCB University), Baripada

SUMMARY

Results-driven Software Developer with 2 years of hands-on experience in building high-performance, cross-platform mobile and web applications using React Native, Android SDK, and React.js. Proficient in API integration, Redux-based state management, and full-cycle app deployment to the Google Play Store and Apple App Store. Demonstrated success in delivering real-time transport and logistics solutions for both government and enterprise clients. Passionate about clean architecture, scalable design, and performance optimization, with a growing focus on AI-powered innovations—leveraging tools like OpenAI GPT-4, Deepgram, and Twilio to create next-generation voice-driven applications.
